I applied for HHU in Germany because I wanted to experience a different culture and education method from Korea. The advantage was that I was able to experience a good campus and foreign friends.

First of all, it was good that there were many options for economics and business administration lectures in English. It was an opportunity to review what I learned in Korea in English, and a good opportunity to get knowledge that I did not learn in Korea. It was also good that the professors provided exams for exchange students.

Secondly, I was able to live freely in HHU and a large campus. I think my experience at a large university will remain an unforgettable memory. It was good that I took classes in a large classroom and that I was able to meet my classmates who actively participated in the class.

Lastly, it was unfortunate that there was no program for exchange students, but it was good to meet many friends from various countries. I had difficulty finding and participating in the program myself, but it was also a good experience.

It is a good opportunity to learn various cultures and sights, so it is a program recommended to students who want to expand their international horizons.

Ich stimme der Veröffentlichung meines Erfahrungsberichtes ohne Nennung meines Namens auf den Internetseiten der Heinrich-Heine-Universität zu.

*I agree to the anonymously publication of my field report on the website of Heinrich Heine University.*
