Diversity Conference 2023

Düsseldorf, 19.06.2023

UNIVERSEH

The Diversity Conference, organized by the UNIVERSEH team of the HHU, aimed to provide students from the participating partner universities with basic knowledge on the topics of diversity and anti-discrimination, as well as to record their experiences and demands for the promotion of diversity at the partner universities of the Alliance.

This content will serve as a basis for the UNIVERSEH Diversity Committee to develop concrete guidelines to complement the already existing Euro Charter.

The feedback from students was very positive and the event was considered a valuable addition to the Summer School 2023.

Also staff of the partner universities were interested in the topic, so that a meeting parallel to the Diversity Conference was organized by the UNIVERSEH HHU-team with representatives of relevant institutions in this field for an exchange.
